private disease of any kind or character  
which he undertakes and fails to cure.

**MIDDLE-AGED MEN**

There are many at the age of thirty and  
sixty who are troubled with too frequent  
evacuations of the bladder, often accom-  
panied by a slight smarting or burning  
sensation and a weakening of the system  
in a manner the patient cannot account  
for. On examining the urinary organs,  
aropy sediment will often be found, and  
small particles of albumen will ap-  
pear, or the color will be of a thin milky  
haze, again changing to a dark and torpid  
appearance. There are many men who  
suffer from all such cases, and a healthy  
restoration of the genital urinary organs.  
Office Hours--10 to 4 and 6 to 8. Sun-  
days from 10 to 11 A. M. Consultation  
free. Thorough examination and advice

## EDITORIAL NOTES.

It is estimated that the military mail service for the fiscal year of 1893-4. A serious inroad into the postal revenues is therefore anticipated, for up to the present time the cost of mail transportation over branches of subsidized railroads has never been charged to postal expense, but has been credited to the interest account of railroads, in accordance with the Thurman act.

The directors of the Northern Pacific Railroad report that the excess of \$14,000,000 on the cost of construction over the engineers' estimates was caused mainly by the thorough character of the construction and the extra cost of bridge foundations, which had been supposed to be rock, and was found to be sand. Whether this explanation will be satisfactory to the stockholders remains to be seen.

Villard's presence in Wall street has had the effect to stay the decline of Northern Pacific stock, resulting disastrously to many of the bears. Brokers who have realized large profits by lending their customers stocks, were caught, and the price under the rule, they were obliged to pay, had a weakening effect upon some of them. The bears are reported to have been completely discomfited.

Butler said the other day that he was capable with one hand of reaching down to the poorest and lowest and giving them help, and with the other grasping the highest prize within the gift of the people. Ben. undoubtedly has the bee in his bonnet, and so places the Democracy in a bad fix. If they don't nominate him he will run independent and get a million of their votes.

A committee of the Produce Exchange of New York has recommended the organization of a company from that body and the Chicago Board of Trade, to purchase the telegraph lines of the West Shore & Nickel Plate Railroads, of which the refusal has been obtained at \$1,000,000 in bonds bearing 6 per cent. interest.

A dispatch announces that a treaty of peace has been signed between Chili and Peru.

The Signal Service will no doubt adopt the time service for railroads.

## TELEGRAPHIC BRIEVITIES.

The assessed valuation of Colorado is \$110,000,000 on the basis of 50 per cent on last year's valuation, and \$104,000,000 on the basis of 60 per cent; net gain \$5,000,000.

Mrs. Louisa Doherty of New York, 35 years of age, last night attempted to kill herself and 5-year old child by cutting the throat of the latter and severing the arteries of her own wrists. Both will probably die.

A three mile boat race on the Ohio river, over the lower Wheeling course last evening, between William Elliott, ex-champion of England, and G. Welscher, of Wheeling, was won by the former in 21:35, beating Welscher two lengths.

## A Rough Ride.

St. Louis, October 24.  
 An accident occurred on the Louisville & Nashville passenger train from Louisville, six miles from East St. Louis. The train struck a broken rail and two passengers and two sleepers, both crowded, toppled over and were dragged along a short distance, when the coupling pin broke. The scene was terrible, and reports place the number of the injured at over 40, but only one fatally.

# WESTERN DISPATCHES

[PRESS DISPATCHES TO THE GAZETTE.]

**The Korean Embassy.**  
 SAN FRANCISCO, October 23.  
 The Korean Embassy, which arrived last night, will leave to-morrow on the steamer Rio de Janeiro, for Hongkong. The members express themselves delighted with what they have seen, and are much impressed with the immense resources of the United States.

**Prospective Railroad War.**  
 Speaking of the result of the Northern Pacific Railroad refusing to have anything to do with the special contract system, there has been a circular issued, bearing the signatures of all the railroad companies, with the exception of the Northern Pacific, addressed to the merchants of the Pacific coast. The circular is to the effect that if the present rates of freight and fares should be cut by the Northern Pacific, or if that company should offer to shippers rates lower than those named in the contract, then such cuts or reductions will be promptly met by all the other companies, and that no rate can be made so low by the Northern Pacific, but will be immediately met by the others.

**The Reporters Hold Out.**  
 SAN FRANCISCO, October 23.  
 The short-hand reporters continue to paralyze the business of the Courts. In Judge Ferral's court yesterday morning, the reporter refused to do any more work until his demands for salary were paid, and the Judge thereupon adjourned the Court, awaiting the action of the Supervisors. Last evening Judge Toohy stated that the second trial of John S. Gray, set for to-day will have to be indefinitely postponed. Other cases will also have to be put over. The Supreme Court says the commitment of the reporters on the part of the Superior Judges, was an excess of authority on their part, so no cases can be tried until the Courts are extricated from their dilemma.

**Hostiles Coming In.**  
 TUCSON, October 22.  
 A Fort Bowie special says: Two Indians from the hostile camp in Sonora came in to-night, and state that 90 Indians and four chiefs will arrive at Rucker to-night. Lieutenant Hunter, with a party and supplies, goes out to-morrow to meet them. Captain Rafferty is near Rucker with two companies, ordered there six weeks ago, expecting the hostiles to return. It is reported that Crook has information of the coming in of the renegades. He, with his staff, is somewhere between San Carlos and the line.

**A Rich Discovery.**  
 TUCSON, October 23.  
 A representative of the Arizona Citizen, just returned from the new Quijota mines, 75 miles west of this place, reports the mines of wonderful richness and great extent. He thinks they will surpass the Silver King at Tombstone, and will soon become the most important mining camp on the Pacific coast. The ore assays from 50 to 4,000 ounces to the ton.

**A Change of Base.**  
 SAN FRANCISCO, October 22.  
 W. M. Neilson, who acted as attorney for Miss Hill in the charges of adultery preferred by her against Senator Sharon, and dismissed in the Court on Saturday, has commenced a suit against Sharon to recover \$120,000 for alleged slander.

# EASTERN DISPATCHES.

[PRESS DISPATCHES TO THE GAZETTE.]

**A Bit of a Skirmish.**  
 EL PASO, Texas, October 22.  
 Dr. Torres, of the medical department of the Mexican army, left Chihuahua yesterday, having received telegraphic orders from an escort sent to Chihuahua on the Mexican Central Railroad by the authorities at Casa Grande. There has been a skirmish between the Indians and Mexicans at that place. The Indians were driving away part of the cavalry's horses, when they were pursued by the other portion of the cavalry. A fight ensued, but it is not known how many were killed, nor which side was victorious. Dr. Torres was sent for to attend the wounded.

**A Stupid Train Dispatcher.**  
 KANSAS CITY, October 23.  
 A collision between a passenger train and a pay car special, on the Arkansas branch of the Santa Fe Railroad, reported last night, occurred near Winfield. A fireman was dangerously injured, and both trains badly damaged. The passengers were unhurt. The fault was with the train dispatcher.

**A Soldier's Burial.**  
 TOLEDO, Ohio, October 22.  
 The obsequies of the late Major General James B. Steadman, at this place, this afternoon, were attended by

one of the largest gatherings in the State. It is estimated that at least 10,000 persons were present. Many were from a long distance. Business generally was suspended. A car-load of flowers from friends of the deceased at New Orleans arrived to-day, and formed one of the most interesting features. The remains lay in state till 2:30 p. m., at the City Hall, and were viewed by thousands. The funeral cortege was very imposing in character, and was over four miles in length. The interment ceremonies were held at Woodlawn, after which the remains were placed in the vault pending their interment in a private lot, recently donated for that purpose.

**Train Runs Off a Trestle.**  
 FORT EDWARD, N. Y., October 23.  
 Train No. 78, on the Glen Falls branch of the Delaware & Hudson River Railroad, went through the bridge over the Glen Falls feeder to the Champlain canal, 80 rods north of Fort Edward. The engine crossed the bridge, but the baggage and passenger car went down into the water, a total wreck. Three persons were killed, and one fatally and four seriously injured internally. Sixteen were injured slightly. Every person on the train was injured except one new baby.

**Donohue's Trunk.**  
 NEW YORK, October 23.  
 Secretary Folger yesterday telegraphed to Collector Robertson to abandon the customs proceedings against Joseph A. Donohue, a California millionaire. Robertson was instructed to release Donohue's trunk on the full payment of the duties, amounting to \$1,638, and expenses of the Government.

# FOREIGN DISPATCHES.

[PRESS DISPATCHES TO THE GAZETTE.]

**Written in Blood.**  
 ST. PETERSBURG, October 23.  
 The first number of the Socialist paper, *Will of the People*, which is printed abroad, has reached this city. It contains a letter from a nihilist prisoner, Netschajeff, to the Czar. Netschajeff was condemned 10 years ago, and was supposed to be dead. The writer complains of the inhumanity of the prison officials, and the terrible treatment which he and his fellow prisoners are subjected to. He says he has recently been deprived of the little light hitherto allowed him. The journal adds: The letter was originally written in blood on a printed piece of paper, and a great portion thereof is illegible. The letter created great excitement among the nihilists at St. Petersburg.

**Incendiaries Sentenced.**  
 BERLIN, October 23.  
 After a trial, which caused much excitement, two Jews, convicted at Coshn, Pomerania, of setting fire to a synagogue to obtain the insurance, were sentenced to four years imprisonment; others were sentenced to shorter terms. The crime was originally attributed to Christians.

**Fever Stricken Cities.**  
 GUAYMAS, Mex., October 23.  
 By the steamer, State of Sonora, from San Blas, news is received that 300 people out of a population of 1,500 at San Blas, had died from yellow fever. At Mazatlan the fever is still raging with fatal results; all kinds of business are suspended.

## Notice to Stockholders

OF THE CALIFORNIA FIG SYRUP COMPANY. On petition this day presented to me as District Judge of this District, where said corporation, organized under the laws of this State, has its actual place of business, signed by stockholders of said company holding the majority of stock actually issued by said company, verified by the signers that they are severally the holders of the number of shares of said stock, set opposite their signatures to said petition, praying the removal of the office of said Company; therefore, notice is hereby given that a meeting of the stockholders of said Company will be held at the Courtroom of the District Court of the County of Washoe, State of Nevada, on the 30th day of October, 1893, at ten o'clock A. M., with the object of taking into consideration the removal of the office of said Company, and such other proceedings as may legally come before said meeting.

Given under my hand this 23rd day of October, A. D. 1893.

W. M. BOARDMAN,  
 District Judge for the Seventh Judicial District of Nevada, for Washoe County.

### NOTES

Read A. Nadon's ad under New To-day.

Fresh Baltimore oysters at Lead-bettors.

James Miller advertises a lot of hay for sale.

Five cars of emigrants went west this morning.

Work on the new iron bridge near Verdi has been commenced.

There was \$1,100 in the pool box yesterday. Pretty good for the first day.

Lindley is working six tons of ore from the Harris mine. It looks well.

Two loads of Honey Lake apples passed through town for Virginia City yesterday.

A woman desires a situation to do general house-work or sewing. See 50-cent column.

Meals at all reasonable hours at the Palace restaurant. Fresh eastern oysters at any time.

E. V. Spencer's trotting mare, "Belle," and running horse, Joe Hooker, are at the track.

Twelve bars of Mt. Diablo and Northern Belle bullion went below per Wells Fargo this morning.

A full line of baskets at Nasty's Bazaar, No. 27 Commercial Row. Thermometer at 7, 9, 11, 1 and 3—\$7, 41, 49, 55, 57.

If any one doubts that the Palace Hotel is doing a paying business, let them call there in the evening; there is hardly standing room.

County Commissioner Frey is enlarging his ranch by clearing off sagebrush and taking out the rock on some hitherto uncultivated land.

A full line of ladies and Misses underwear, hose and shoes at F. Levy & Bro.'s, at San Francisco prices—take a look at their stock.

People from the country who are here to attend the races, are saving another trip by buying winter suits and overcoats at the White House.

H. A. Winton is prepared to do boot and shoemaking at his shop on Virginia street, south of the Odd Fellow's building. See 50-cent column.

No cooking ranges or stoves ever brought to this market, have ever given one-half the satisfaction as those to be seen at Knowles & Bainbridge's.

The ticket agent at Reno has received official notice of the opening of the Atlantic & Pacific Railroad via the Needles and Albuquerque.

Preserved orange peel, citron, raisins and boiled cider at A. Lindley & Co.'s, so if your mince pies and fruit cake are poor it is your own fault.

Since the opening of S. M. Jamison's cash dry goods store, very few goods of that character have come through the postoffice; it is cheaper to buy at home.

Before another storm, you want to go to Osburn & Shoemaker's for window glass and putty, and proceed to take out that shabby broken glass and put in new; it saves fire wood.

### PERSONALS

Scott Lake has a position in the Asylum.

Judge Bout returned to San Francisco to-day.

Mrs. General Clarke is in town, visiting Reno friends.

Judge W. M. Cary, of the Arlington House in Carson, is reported very ill.

E. V. Spencer and wife and Miss Josie Barnes arrived in town from Susanville last evening.

### A New Firm

R. E. Queen has formed a copartnership with Wm. Pinniger, formerly in business here, in the wholesale and retail drug business.

The business will hereafter be conducted in the name of Pinniger & Queen. The new concern are making valuable and extensive additions to their business and store.

They carry one of the most complete stocks in the coast, and are prepared to supply the trade with everything in their line. They are practical pharmacists, and the public will find the drug house of Pinniger & Queen in every way reliable. Give them a call.

### Mount Cory Hill

The Esmeralda Herald says: Everything is under the usual order of progress with this structure. Car loads of material and machinery continue to arrive. The boilers are in place, the engine beds laid, and the greatest activity is apparent at the scene of operations. Those who have seen the large mills of other mining localities, will be surprised when they view and inspect this one.

### Supreme Court

The case of Lyon vs. Esmeralda county was argued for the plaintiff in the Supreme Court yesterday.

The defense was allowed ten days to file briefs. This case involves the constitutionality of the Act passed by the last Legislature, detaching a portion of Esmeralda and adding it to Lyon county.

### Organizer of Victory

General Rufus Ingalls, Quartermaster General, considers St. Jacobs Oil the best pain-cure for sprains and bruises ever used.

### WHERE WE GOT THEM

The Origin of Milk and Beef Cattle.

Those most entitled to confidence, believe that the urus, a native of central Europe, is wild animal of immense size described by Caesar.

was the original progenitor of all varieties of modern cattle. Others again say they descended from the Eastern buffalo. The remoteness of the period in which their usefulness to man began, renders it impossible to remove all theories upon which a reasonable doubt in the skeptic's mind could be based.

The earliest contributors to Holy Writ speak of the bull, the ox and the calf, just as the writers of the present day allude to them. Re-trace the footprints of time to a period in Egyptian history, the antiquity of which is unknown—the building of the monuments in the tombs of the kings at Thebes—and there is engraved a plowing scene representing a simple two-handled plow, drawn by a pair of cows, whose calves are illustrated in playful glee in front of the mothers who wearily plodded along.

TWO DISTINCT SPECIES

Of cattle are found in Palestine. The buffalo of India, constitutes one, and the common domesticated cattle, much like those of other countries, the other. Some writers claim that the Indian buffalo is the original ancestor of domestic cattle. It now inhabits Palestine, but is of questionable nativity, many entertaining the belief that it is of comparative recent importation. This is the *ubalus bubalus*, the true buffalo found scattered over many parts of the earth, and are exceedingly plentiful in India. There are two breeds; one, the Arnee, a wild and untameable beast of enormous size, measuring, when full grown, over 10 feet from the nose to the root of the tail, and from six to seven feet in height. Its horns are of prodigious length. The tail is short and tufts of hair grow on the forehead and horns.

The other variety is smaller and less vicious; these are known as the Bhanua or domesticated variety. Whatever may have been the origin of the domestic cow,

A LONG LINK

is necessary to fill up the gap between the original ancestors and the domesticated animal. The chief food of the early Britons consisted of the milk and flesh of cattle. Skulls of these animals have been found far exceeding in size that of any of the cattle of recent date, thus establishing the belief that giants among the cattle of ancient Britain were not uncommon. About 500 years ago agriculture began to displace from the British herds the attention previously bestowed upon them. Subjected to this neglect for about three centuries they became greatly diminished in size. Within the last two centuries, however, a revolution in the management of cattle has been wrought, new systems of breeding were introduced; these resulted in improvements that gave them a higher place in the esteem of farmers than they had ever before enjoyed.

Seriously Injured.

A Susanville GAZETTE correspondent writes as follows: "A serious accident occurred here on the 20th. A. S. Wright, a rancher living a few miles from town, started for his home in a buggy, accompanied by his young daughter. By some means his horse, a spirited animal, became unmanageable, and running down the hill on Main street, made a turn which upset the buggy, throwing both the occupants violently to the ground. The daughter was uninjured, but Mr. Wright is still unconscious at the time of writing, although the accident occurred 24 hours before, and a fatal result is feared."

Humboldt Crops.

A Lovelock correspondent of the Silver State writes that paper as follows: Threshing is about through with and farmers are busy hauling and shipping their grain. Wheat sells at from \$27 to \$30 per ton, loaded on the cars; barley at from \$22 50 to \$25; hay, baled, \$12 per ton; loose, \$8 50, with no prospect of a surplus. The Central Pacific Railroad generally gives farmers special rates on their grain to California, so they are not wholly at the mercy of the local dealers.

Licked By the Dogs.

A very good hit was recently made at an election in Scotland by one of the defeated candidates. A gentleman approached him with, "Well, Mr. H—, how do you feel?" "Well," said he, "I feel, I suppose, pretty much as Lazarus did." "At Lazarus did?" said the first speaker; "how is that?" "Why," said he, "Lazarus was licked by the dogs, so was I."

A Wealthy Miser.

A Stockton miser died recently, leaving \$44,338 95 in cash. The only clothing he was possessed of when he died was one very coarse suit, without underwear or socks.

After His Man.

A Boston officer, armed with a regulation from Governor Butler, passed west this morning on his way to San Francisco to take back Dewey, the forger.

### ANIMAL INSTINCT.

How the Inhabitants of Iochia Were Warned.

An Italian writer on the dreadful catastrophe which occurred so recently on the Island of Iochia, mentions those prognostications of an earthquake which are derived from animals. They were observed in every place where the shocks were such as to be generally perceptible. Some minutes before they were felt the sheep and goats began to bellow, the sheep and goats bleated, and rushing in confusion one on the other, tried to break the wicker-work of the folds. The dogs howled, the geese and fowls were alarmed and made much noise; the horses which were fastened in the stalls were greatly agitated, leaped up and down and tried to break the halters with which they were attached to the mangers; those on the road stopped suddenly and snorted in a very strange way. The cats were very much frightened and tried to conceal themselves, or their hair bristled up wildly. Rabbits and moles were seen to leave their holes; birds rose as if scared from the places on which they had alighted; and fish left the bottom of the sea and approached the shores, where at some places great numbers of them were taken. Even ants and reptiles abandoned, in clear daylight, their subterranean holes in great disorder, many hours before the shocks were felt. The dogs, a few minutes before the first shock took place, awoke their sleeping masters by barking and pulling them, as if they wished to warn them of the impending danger, and many persons were thus enabled to save themselves.

Alta Pump all Right.

The Enterprise says: The Alta folks yesterday had but 65 feet to go to drain their mine to the 2150 level—the bottom. Excellent work has been done in pumping out this mine from the very start. Superintendent Boyle has not missed a trick from first to last. The pump at the 2150 level is still doing very good work, though it is now being helped with a donkey. What has been done at the Alta shows what may be done at the Yellow Jacket, Crown Point and Belcher. The good condition of the pump at the 2150 level of the Alta (so long submerged) is proof that the pumps in the other mines are all right.

Arrested on Suspicion.

Yesterday morning a boy who was lounging about the lower end of the depot, overheard a couple of tramps talking about "digging up" what they had and dissolving partnership, as one of them wished to go east and the other west. The conversation was reported to Constable Nash, who followed the one going east, and brought him back. There was nothing found on him to afford any clue, but he answers the description of one of the men who recently robbed the Truckee and Sierra Valley stage. Another report is that the partner who went west gave him away.

The Candelaria Suit.

The suit in the United States Circuit Court of the Holmes Mining Company vs. the Northern Belle, to recover \$2,000,000, the estimated value of the ore alleged to have been taken from plaintiff's ground, will be called on Tuesday, the 6th of next month. Judges Messick, Estee and Boulton and A. W. Crocker appear for the plaintiff, and Garber & Thornton, Burbank, Wren and Judge Wells for the defendants. As the suit is likely to be a lengthy one, it will prove a small bonanza to the Carsonites.

A Requisition.

A requisition from Governor Stoneman for the person of Edward Hyams, was received at Carson yesterday. Hyams arrived from Elko this morning. Detective John Meagher arrested him here and hired a team from Hyams to take him over the border into California. He is wanted by San Francisco creditors.

The Golden Rule.

A young girl in Austin was caught kissing her sweetheart a few nights ago. Her mother took her to task for such actions, but the girl alluded her with this quotation: "Whatsoever ye would that men should do unto you, do ye even so unto them." The old lady wilted. Memories of old were brought to mind.

Good Mock File.

Hon. C. C. Stevenson of Gold Hill has one of the finest ore dumps ever seen. It contains 7,000 tons of ore that will work \$25 a ton. It is the best pile of ore ever seen in one place in Western Nevada, and has only been equaled once in Eastern Nevada.

Americans Got Left.

The Bodie Free Press says: The recent vote in Ohio is interesting. The native born citizen voted for temperance, while the foreign element voted for beer and whiskey, and plenty of it. The Americans got left.

Arrested.

On the arrival of the noon train from Carson to-day, a Carson taller by the name of Johnson, the man who had a divorce suit a short time since, was arrested by officer Jones. The belief is that the arrest is for debt.

Brother Reeve.

The Salt Lake Tribune says: Elder Reeve, the Davis county defaulter, is alluded to by the Mormon Church organ as "Mr. William Reeve," and is excused for his racial quality by that sheet on the ground of being "too lenient with delinquent taxpayers." He also had a weakness, according to the same authority, for getting his own accounts mixed with those of his country—just like Brother Brigham used to get the Lord's accounts mixed with his personal affairs, and when the day of final settlement came, personal accounts always overbalanced the Lord, and Brother Brigham was ahead. Elder Reeve, however, could not stand off the county, so he ran off, taking shipping at New York on the wide, wide sea, leaving the citizens of Davis county minus \$4,700. This reminds us of the fact, "we are a peculiar people."

Lost Man Department.

Amelia Lender, No. 74 Clinton place, New York city, is anxious to learn news of her brother (dead or alive), whose name is William H. Lender. She says he was in Virginia City Nevada, a few years ago, and was concerned in mining. His mother died last May, leaving him some money, and it is necessary to have news from him in order to settle up the estate.

Mason Valley Fair.

The Mason Valley Fair is reported to have been but dimly attended; the stock show having been meagre, but the exhibit of farm products was good. The most interesting event of the week was the ball at Craig's Hall.

A Murderer Captured.

Charley Hough, the half-breed Indian who murdered a Pute near Susanville, for \$100 in money, has been captured by the sheriff of Lassen county, and lodged in jail. He is represented as a desperate customer.

Nevada Shooters.

Superintendent Crawford of the Mint, Senator H. G. Parker and George Cowing, all of the Carson Guard, went below this morning to take a hand in the coming shooting match.

Plenty of Room.

The Government has reserved 132 square miles of land in Inyo county, California, for military purposes. Uncle Sam is going to have a ranch large enough for his boys to get up an appetite for hard tack.

An Old Waller.

The Carson Appeal says there is an old colored man on the jury in the District Court in that town, who has visited every known seaport in the world.

The Carson Boys Respect For a City Ordinance.

In speaking of the effect of the curfew ordinance in Carson, the Appeal says: One boy the writer knows of was asked to go out and get some wood after 8 o'clock. He declined on the grounds that his natural instincts were law-abiding, and that as the curfew had tolled he would under no circumstances go out of doors. He would rather have his back broken than to break the good laws of his country.

A youth who was taking a girl to a party last night heard the bell ring and dropping the girl ran home. The fact that the girl was homely as sin' and her company had been forced on the boy by his parents, may have had an effect on the youngster's bump of reverence for the law, but it is not for this scribe to say.

To-Day's Races.

In the first race to-day, Jim sold in the pools for \$5; Snuff Box, \$2 50; Overland Pat, \$3; Banta, \$2 50; Harry B., \$3. Jim won the first heat in 1:51, Banta second, Pat third, Harry B. fourth and Snuff Box fifth. The trotting race yesterday was won by Tyler.

Teams Free.

The managers of the track desire to announce that teams can enter the track free of charge. Those who have paid will have their money refunded. All teams go in free, the occupants pay their individual fares.

Wants His Old Gun.

George Thaxter of the Carson Guard, who has been practicing at Shell Mound with a new gun, was only able to score 42. He sent back to Carson for his old gun.

Dog Poisoners.

Ormsby and Douglas county people are raising a fund by subscription to offer a reward for the arrest and conviction of the dog poisoners.

A Mad Bereavement.

The little eight-year old son of S. S. Sears, editor and proprietor of the Elko Independent, died at San Francisco last Monday.

New Administration.

Ned Reddy, a brother of Senator Pat Reddy of Mono county, Cal., has been appointed Captain of the Guard at San Quentin.

Bonnet.

The Best Toilet Soap. The most economical. Good for the skin. Improves the complexion. Cures skin diseases. BONNET is a great favorite with ladies who have tried it, because it gives a natural appearance to the skin which other soap can impart. It does not leave that glossy, shining appearance on the face which is considered objectionable. Only 10 cents a cake. Sold by all druggists.
